

**RESOLUTION ON DEMOLITION OF UNIVERSITY BUILDINGS  
NO. 0133 (RANDOLPH HALL), NO. 0270C (RANDOLPH ANNEX) AND  
PARTIAL DEMOLITION OF NO. 0133C (HANCOCK HALL)**

The university requests approval to demolish Building No. 0133 (Randolph Hall), Building No. 0270C (Randolph Annex), and to partially demolish Building No. 0133C (Hancock Hall). These facilities are located in the North Academic District of the main campus in Blacksburg, Virginia.

Constructed in 1959, Building No. 0133 (Randolph Hall) is a 165,918 gross square foot (GSF) academic facility supporting the College of Engineering and provides a significant number of general assignment classrooms in the core of campus. The facility was constructed in phases, and is a concrete structure with red brick cladding. This demolition request includes all phases and appurtenant structures with the exception of the six-foot stability wind tunnel, acquired in 1958, which will remain operational. The appurtenant modular 3,360 gross square foot structure, Building No. 0270C (Randolph Annex) was constructed in 1989.

Constructed in 1990, Building No. 0133C (Hancock Hall) is a 63,075 gross square foot academic building. Currently, Building No. 0133 (Randolph Hall) and Building No. 0133C (Hancock Hall) are interconnected. Demolition of Building No. 0133 (Randolph Hall) removes a shared wall which comprises the envelope enclosure of the east side of Building No. 0133C (Hancock Hall). The 16,550 gross square foot partial demolition of Building No. 0133C (Hancock Hall) includes a two-story north wing which wraps the northwest corner of Building No. 0133 (Randolph Hall). A partial basement of the wing houses an electrical vault which will remain operational. The demolition of Building No. 0133 (Randolph Hall) will allow Building No. 0133C (Hancock Hall) to become a stand-alone facility, with an envelope to be completed via a concurrent capital project.

The current facilities are aged, undersized and do not support current pedagogies. These demolitions are enabling the opportunity to provide a site for a state-of-the-art engineering hub and general assignment classroom facility in the core of campus. The university will obtain review from the Department of Historic Resources and the Art and Architecture Review Board, and any required approvals prior to the demolition of these structures.
